Space Communications
Gordon Kenworthy-Neale, a Tribute

AMERC NEWS is the Journal of the Association of Marine Electronic and Radio Colleges.
It is distributed to all Members, Associates and Affiliates of the Association.
AMERC Ltd encourages the copying and wider distribution of AMERC NEWS.

EDITORIAL

Surprisingly for one more attuned to the calendar than the clock, I tend to forget to send season's greetings with the late year issue although a defence that I write early has been weakened by the appearance of the stores these last few months. Anyway, back to the point, let us hope that 2010 is a good year for the Association and for you and yours. There is news inside of manuals that have been awaited and they may give you happy Christmas reading!!

Reviewing the technical press during preparations, I found little that was new but sometimes there are surprises bubbling below the surface. I was led to wonder what will emerge from the sleeves of the technologists and regulators with news of long range AIS collation via satellites. Added to this the painful subject of radiocommunications in the polar regions, long avoided as many of us know from practice, is being driven to the front step by the opening up of the passages over the top of Canada and Russia. You have to wonder, what next?

With our own affairs, the new examination system is under regular review and although AMERC NEWS will follow and report events, the major analysis will occur at AGM, now only six months away. You will see two new departures with the AGM, one a move inland to Birmingham and the other a shift to June which while not unknown has not been frequent. The homily must therefore be to put the date in that shiny new (or battered academic year) diary.

Talking of things bubbling up, look out for people change in 2010. For one thing, and this will probably surprise you, our Chairman, Mike Webster, has announced that following his retiring from post at South Tyneside College he will resign as Chairman of the Association at AGM. In a later issue of the NEWS, opportunity will be taken to make full tribute to Mike's major contribution to our affairs.

I have made it a rule when writing AMERC NEWS not to mention my own history but it was turned on its head recently. It seems I am one of the few survivors who can say I was there at the beginning, I may indeed be the 'last man standing.' I was newly appointed (grade A and two increments) when the Association first cranked up in 1962 and well remember the ferment it caused. As you all know I had my own history with the Association and the Executive has asked me to compile a list of those who contributed to the Association since the earliest days. Thought has yet to go into what can be planned but to commemorate the Golden Jubilee year of 2012 is on the agenda. I have agreed to produce a list of contributors, down to the recent past. I have made a start but I am placing myself in your hands, hoping you will be able to suggest names from your local area or elsewhere.

Finally don't forget to put some time aside to try the GMDSS Quiz on the website. I did and was impressed with the skill with which many of the answers had been prepared, including those ever troublesome distracters.

*Best Wishes
Brian Cotton*

ANNOUNCEMENTS

The Association is pleased to make the following announcements

CHAIRMANSHIP

Mike Webster retires from his post at South Tyneside College at the end of 2009. He has agreed to the request of the Executive Committee that he should retain his membership of the Association until the 2010 AGM.

AMERC NEWS will be taking opportunity to make tribute to Mike for his wise and effective leadership of the Association in a future issue.

AN APOLOGY

We omitted to mention in the last issue that Chris Harrison had been elected Vice Chairman of the Association at the 2009 AGM. In trying to make a coherent story from the significant rule changes, your Editor completely overlooked this position. Our apologies to Chris.

GOLDEN JUBILEE

The Association will have been established for all of fifty years in 2012. The Executive Committee wishes to commemorate this Golden Jubilee in ways yet to be defined. One thing we know at this stage is that it intends to contact those who contributed to the successes of the Association over the years.

Your Editor is compiling a list and would appreciate members contacting him with suggestions

TED HACKETT

As we went to press we heard that Ted Hackett was recovering at home following a double operation at Preston Hospital. We understand that all went well and that he is in good cheer. We all send him our very best wishes.

2010 AGM

The Association AGM will be held on 10 June 2010 at the Marriott Hotel, Fiveways, Birmingham and further details will be announced in the next issue of AMERC NEWS.

The hotel is close to public transport facilities. Birmingham is easily reached from London and elsewhere by rail and served by regional airports

Members might like to note that the AGM will be held in *June*, not May as has generally been the custom.

MARITIME CONSULTANCY GROUP (MCG) -1

The MCG met in Kendal in late September, giving attention to the usual mix of operational matters. With the following report are some similar items which have subsequently come to our notice.

ASSOCIATION RULES

Members will recall that substantial and significant rule changes were agreed at the 2009 AGM and are now in force.

Those needing to refer to the Rules will find them on the Association's website.

CHARITABLE DONATION

The Executive Committee has agreed to make a charitable donation of £10,000.00 to Mercy Ships to assist the onboard professional staff with STCW training.

Mercy Ships take free surgery and medical care to ports of the world; there is an interesting review of the work of the organisation on the website:

www.mercyships.org

EXAMINATION PAPERS REVIEW

By now REC Coordinators will have been asked by the Chief Examiner to identify any anomalies in papers (including those used for practice) and to give feedback.

Proposals for changes will be collated and considered at the December meeting of the MCG. The intention is to implement the changes in February 2010.

NEW EXAMINERS WELCOMED

The Association welcomes the following new GMDSS examiners:

Parag Agnihatri	TS Rahman
Duncan Taylor	Fleetwood NC
Philip Pryor	Western Training

CRIMINAL RECORD CHECKS

It has become apparent that some AMERC GMDSS Examiners may not have been subject to checks by the Criminal Records Bureau (CRB) or its devolved administration equivalents - Disclosure Scotland and Access Northern Ireland.

REC Co-ordinators need to explore their local situations and deal with them appropriately.

GMDSS QUIZ

The interactive GMDSS Quiz is now on line with free public access. It is designed in multi-choice format with sixteen topic areas - one of which selects 15 questions at random from the entire bank. Feedback is given as a score with hints for wrong answers. No records are kept of scores achieved.

The Quiz is still in evaluation mode. If you would like to contribute new questions or comment on existing ones, please use the Feedback form (via a link at the bottom of each Quiz page). Also use the form to tell us if you find the interactive quiz helpful or have suggestions for improvement. If you have not tried it yet go to:

www.amerc.ac.uk/quiz

MARITIME CONSULTANCY GROUP (MCG) -2

MEDICAL CERTIFICATES

Following an enquiry from a member, the MCA has advised that medical certification is not required for the issue of a GMDSS certificate.

However, before such a certificate can be used for sea-going purposes, it has to be endorsed by the MCA. This requires the issue of an ENG1. An ENG1 is also required for the purposes of revalidation along with sea-time to meet the STCW requirements.

Those who wish to use a GMDSS certificate for (non-STCW) shore based employment do not require the GMDSS certificate to be endorsed or indeed revalidated.

GMDSS LOGBOOK

The following advice has been received following a number of queries.

The new GMDSS Logbook correctly identifies the frequency of testing for VHF handheld sets as monthly, not weekly as in the previous editions.

ARCTIC COMMUNICATIONS

The opening up of the Northwest and Northeast Passages has caused new thinking about communications in these areas.

The European Space Agency is financing a study into future Arctic communication systems. This is to include current and planned satellite communications and gaps in coverage.

Five new navareas have been designated to cover MSI in Arctic regions.

GMDSS HANDBOOK

The fifth edition (2009) of the *Handbook for Marine Radio Communication* by Graham Lees and Willie Williamson has just been published by Informa Professional

For those wishing to order, the ISBN number is 978-1-84311-797-1 and further details may be had from the website:

www.informaprofessional.com

(Page 6 has details of new ITU publications, including the 2009 Edition of the Maritime Manual).

GMDSS EXAMINATION STATISTICS

The NAC has provided the following GMDSS Examination Statistics for the period April 2009 to June 2009.

EXAMINATION	ENTERED	PASSED
UK GOC	200	156
ALL GOC	626	500
UK ROC	52	48
ALL ROC	110	103
LRC	86	82

M-NOTICES

The following M-Notices appear to have some relevance to Members and are briefly reviewed here. The full list of the current M-notices appear on the MCA website (www.mcga.gov.uk) to which reference should be made from time to time

MGN 358 (M+F) CLASS-D VHF RADIOS

This Note advises that Class D equipment – VHF DSC - was developed to provide minimum facilities. It warns that some models coming to market may have additional facilities that do not comply with international standards.

Retailers and purchasers are warned to measure any prospective purchase against the MCA specifications.

September 2009

M-NOTICES (M+F) DISTRIBUTION AGENT

The Note advises that the EC Group in Grays Essex is the new distributor for M-Notices and gives contact details.

The MCA website will remain a source for current Notices.

October 2009

MIN 361 (M) VOLUNTARY OBSERVING SHIPS (VOS)

This Note explains the VOS schemes that provide meteorological data from ship to shore. It stresses the importance of the data provided, gives reassurances about protection of privacy and some details of the World Meteorological Organisation (WMO).

October 2009.

MGN 401 (M+F) UK VTS AND LPS

This lengthy Note defines the UK interpretation of Vessel Traffic Services (VTS)S. It also specifies the responsibilities of those providing (VTS) and Local Port Services (LPS.).

Some might find the diagrams useful.

September 2009

oooOOOooo

ITU MANUALS

The ITU has now published the *Radio Regulations 2008 Edition*. Also available are:

Maritime Manual 2009 Edition

List of Ship stations (49th) Edition 2009.

List of Coast Stations (21st) Edition 2009.

Radiodetermination and Special service Stations (17th) Edition 2008.

For further information or to place an order, go to:

www.itu.int.

(Page 5 has reference to the 5th Edition of the *Handbook for Marine Radio Communication* by Graham Lees and Willie Williamson).

AMERC NEWS

SELECTED INDEX

(Updated each Issue)

January 2005 – September 2009

NOTES:

- (i) **This is a selective index and only records items to which reference is likely to be needed. It is updated with each Issue of AMERC NEWS.**
- (ii) **Issues 17 to 31 are in pdf format and are fully searchable once loaded.**
- (iii) **Quarterly GMDSS Statistics provided by the NAC appear in AMERC NEWS.**
- (iv) **Technical Update supplements in pdf format together with an index can be found on the AMERC Website: www.amerc.ac.uk.**

MN LEARNING CLUB

The Marine Society has set up a Learning Club for the Merchant Navy. Members will not be formal Open University students but they will have free, no-strings-attached access to the high quality online educational material taken from the Open University courses.

Features of the Club are:

- Access to tools to help organise and make sense of the studies
- Free and unlimited access to the Open Learning community
- Discussion forums

BACK PAGE

SPACE AIS

Current AIS transmissions use line of sight communications and have the expected range limitations. To extend the reach for shore authorities, space based AIS (AIS-S) is being developed by COM DEV. The aim is to have a constellation of micro-satellites which will collate and deliver global AIS data to maritime authorities. The first satellites are to be launched in 2010.

AIS-S is planned to collect data from current AIS transmissions without changing the shipboard equipment. The AIS-S transmissions will be encrypted and only made available to competent maritime authorities.

There are several websites reporting this development, perhaps the best is:

www.exactearth.com.

GORDON KENWORTHY-NEALE

Gordon Kenworthy-Neale in succession headed departments, some including marine electronics, at Riversdale College, The School of Maritime Studies in Cardiff and the Australian Maritime College. He was always a positive supporter of college associations, especially AMES and AMERC. He was delightful company.

Gordon was a marine engineer and held the rank of Captain (E) in the RNR and was ADC. Later he took holy orders and after retirement from the Australian Maritime College became Bishop of the Pacific Islands.

We extend our sympathy to the family and thank Jack Ayles, Chairman of AMERC in the mid-eighties, for giving us this sad news.
